

Discharge Silencer for TurboTron™

Legends has developed a silencer specific for the Gardner Denver TurboTron™ exhauster and blower. The unit is designed with mating flange patterns to bolt on the TurboTron™ without the need for adapters and additional fittings.

- 3" Diameter ANSI patten flanges to mate exhaust from vacuum unit
- Perforated tube surrounded by acoustic absorption material at a controlled density to achieve silencing.
- Exterior shell retains acoustical pack and reflects noise back into pack to achieve maximum noise reduction.
- Designed for very low pressure drop and long service life.
- Can be installed either in vertical or horizontal position.
- All welded sheet and plate steel.
- Flanges are drilled to match 125 lb. American Standard Flanges
- Painted RAL 9003 Signal White
- Part Number 30-CS-AE-8335
