

## Series 2000 Static Resistive Hose

Proprietary polyethylene conductive copolymer hose with a white skimcoat, which is reinforced with an integral polyethylene helix and supplied with conductive cuffs, providing a fully conductive hose assembly. The plastic resin blend used in the hose construction contains carbon black, which provides a static **Surface Resistivity Level:  $10^3$ - $10^5$  Ohms/Square**. There is no ground wire to break or bend, and the hose is fully crushproof.

- PVC Swivel Cuffs – Static Conductive
- 1-1/2” or 2” I.D. – Length up to 50’
- Negative vacuum to -29” Hg
- 4-1/2” Bend Radius
- Temperature range -20°F to 140°F.
- Standard Colors : White, Yellow or Black
  - Skim coat exterior.
  - Non-scuff, so it will not mark floors.
  - Custom colors available (Blue, Red, Yellow)

Part Number	Diameter	Description
15-HO-2025	1-1/2"	25' Ft. Long Black hose with White Skim Coat Static Conductive Swivel Ends
15-HO-2035	1-1/2"	35' Ft. Long Black hose with White Skim Coat Static Conductive Swivel Ends
15-HO-2050	1-1/2"	50' Ft. Long Black hose with White Skim Coat Static Conductive Swivel Ends
20-HO-2025	2"	25' Ft. Long Black hose with White Skim Coat Static Conductive Swivel Ends
20-HO-2035	2"	35' Ft. Long Black hose with White Skim Coat Static Conductive Swivel Ends
20-HO-2050	2"	50' Ft. Long Black hose with White Skim Coat Static Conductive Swivel Ends

Our static conductive hose is designed for use with commercial and industrial vacuum equipment to help enhance safety and prevent floors from being marked.

Series 2000 is a polyethylene conductive copolymer hose with a white skimcoat with conductive cuffs providing a fully conductive hose assembly.

This light weight and highly flexible and conductive hose is suitable most low pressure applications. This hose can be used for wet or dry material.

### **Hose characteristics:**

- Durability: Very Good
- Flexibility: Excellent
- Conductive
- Surface Resistivity Level:  $10^3$ - $10^5$  Ohms/Square
- Smooth interior assures efficient air flow
- Ideal for industrial vacuum & light bulk material applications where static may be an issue
- Superior external abrasion resistance
- Crush resistant
- 1-1/2" or 2" inside diameter conductive swivel cuffs included
- Used within temperature range of -40 deg F to 140 deg F

### **Typical Applications:**

Auto Detailing, Bus Ventilation, Concrete Floor Cleaning, Conduit, Industrial Vacuum Cleaners, Paper Trim Conduit, Printing, Sprayers, Static Control, Ventilation

### **Extended Description:**

Introducing the ultimate solution for your commercial and industrial cleaning needs—the Series 2000 Conductive Vacuum Hose with Swivel Cuffs from Legends Equipment is sleek black and white in color and operator friendly. Say goodbye to the worry of static and unsightly scuff marks on your floors.

**Safety Meets Superior Performance:** Our static conductive hose is not just a cleaning tool; it's an investment in the safety and cleanliness of your workspace. Designed specifically for commercial and industrial vacuum equipment, this hose takes the worry out of your maintenance routine by preventing static buildup—a critical feature in environments where safety is paramount.

**Cutting-Edge Conductivity:** Crafted from a polyethylene conductive copolymer with a pristine white skimcoat and fully conductive cuffs, the Series 2000 hose ensures a completely conductive path, eliminating static discharges effectively and reliably with a surface resistivity level of  $10^3$ - $10^5$  Ohms/Square.

**Lightweight and Ultra-Flexible:** Don't let the toughness of industrial-grade material fool you—our hose is remarkably light and boasts outstanding flexibility. Glide around corners, reach under machinery, and navigate through tight spaces with ease. It's perfectly suited for both low pressure applications and the rigors of heavy use.

**Adaptability for Wet or Dry:** Whether you're dealing with a spill or dust accumulation, this versatile hose can handle wet or dry materials without compromise. Its smooth interior assures an efficient air flow, enhancing your vacuum's performance and your productivity.

**Diverse Application Range:** Our conductive vacuum hose excels in a wide array of applications. It's the ideal companion for auto detailing, bus ventilation, concrete floor cleaning, conduit work, industrial vacuum cleaners, paper trim conduit, printing operations, sprayers, and any static control or ventilation requirement.

Available in 10', 15', 25', 35' and 50' lengths, we provide options tailored to your specific operational needs. Choose Legends Equipment Series 2000 conductive vacuum hose for a spotless clean that actively contributes to a safer work environment. Don't compromise—upgrade to a hose that delivers on safety, performance, and flexibility.
